Barium Carbonate
Material Safety Data Sheet

Chemical: Barium Carbonate

NFPA: H=2  F=0  I= 1  S=None
HMIS: H=2  F=0  R=0  PPE= Supplied by user; dependent on conditions

MSDS Number: barcarb-1003
Effective Date: 9 October 2003
Issued by: Solvay Chemicals, Inc. Regulatory Affairs Department

Not valid three years after effective date or after issuance of superseding MSDS, whichever is earlier. French or Spanish translations of this MSDS may be available. Check www.solvaychemicals.us or call Solvay Chemicals, Inc. to verify the latest version or translation availability.

Material Safety Data Sheets contain country specific regulatory information; therefore, the MSDS's provided are for use only by customers of Solvay Chemicals, Inc. in North America. If you are located in a country other than the United States, please contact the Solvay Group company in your country for MSDS information applicable to your location.

1. Company and Product Identification

1.1 Product Name: Barium Carbonate
Chemical Name: Barium Carbonate
Synonyms: Barium salt
Chemical Formula: BaCO₃
Molecular Weight: 197.37
CAS Number: 513-77-9
EINECS Number: 208-167-3

Grades/Trade Names: Barium Carbonate Granular, High Purity Grade VL 600 and VL 600S

1.2 Recommended Uses: Construction materials, additives, Chemical industry, Pharmaceuticals, Glass industry, Welding and soldering agents, Electrical industry.

1.3 Supplier: Solvay Chemicals, Inc.
PO BOX 27328 Houston, TX  77227-7328
3333 Richmond Ave. Houston, Texas 77098

1.4 Emergency Telephone Numbers
General: 1-877-765-8292 (Solvay Chemicals, Inc.)
Emergencies (USA): 1-800-424-9300 (CHEMTREC®)
Transportation Emergencies (INTERNATIONAL/MARITIME): 1-703-527-3887 (CHEMTREC®)
Transportation Emergencies (CANADA): 1-613-996-6666 (CANUTEC)
Transportation Emergencies (MEXICO-SETIQ): 91-800-00-214-00 (MEX. REPUBLIC)
-0-11-525-559-1588 (elsewhere)
2. Composition/Information on Ingredients

3. Hazards Identification

Emergency Overview:
- Hazardous product for human health.
- Presents hazards from its ionizing barium action on the neuro muscular system.

3.1 Route of Entry: Inhalation: Yes  Skin: Yes  Ingestion: Yes

3.2 Potential Effects of exposure:
- Hazard due to the formation of barium chloride in the presence of hydrochloric acid (stomach).
- Risk of cardiac, nervous and muscular disorders.
- Fatalities have been observed after a single dose of 4 grams or more taken by an adult weighing 70 kg (155 lbs.).

Inhalation (Dusts):
- At high concentrations, nose and throat irritation.
- In case of repeated or prolonged exposure: risk of bronchitis.

Eyes: Moderate irritation. Risk of temporary eye lesions.

Skin contact: May cause irritation with redness and pain.

Ingestion:
- Abundant salivation, nausea, vomiting, abdominal cramps and diarrhea.
- Risk of cardiac rhythm alteration.
- Trembling, muscle cramps followed by general weakness and paralysis of the extremities.
- Risk of shock.

Carcinogenicity: See section 11.3
4. First-Aid Measures

General Recommendations:

4.1 Inhalation:
- Remove the subject from dusty environment and let him blow his nose.
- Consult with a physician in case of respiratory and nervous symptoms.

Eyes:
- Flush eyes with running water for at least 15 minutes, while keeping the eyelids wide open.
- Consult with an ophthalmologist in case of persistent pain.

Skin: Wash the affected skin with soap and water for at least 15 minutes and clean clothing.

Ingestion: Consult with a physician in all cases and take to the hospital.

If the subject is completely conscious:
- Rinse mouth with fresh water. 250 ml of fresh water added with 30 grams of sodium sulfate. If the subject presents nervous, respiratory or cardiovascular disorders: administer oxygen.

If the subject is unconscious:
- NEVER GIVE ANYTHING BY MOUTH TO AN UNCONSCIOUS PERSON.
- Remove any evidence of the product from the person’s mouth.
- Loosen collar and tight clothing, lay the victim on his/her left side.
- Administer oxygen or cardiopulmonary resuscitation if necessary while keeping and patient warm.

4.2 Medical Treatment/Notes to Physician:
- Do not give adrenergic drugs.
- Ingestion: Pulmonary resuscitation (oxygen therapy). If necessary, tracheal intubation. Gastric lavage after administration of 250 ml of water added with 30 grams of sodium sulfate.
- Surveillance of cardiovascular system (heart rate and blood pressure).
- Surveillance of neuro-muscular reactions.
- Surveillance and treatment of hypokalemia.

5. Fire-Fighting Measures

5.1 Flash point: Not Applicable.

5.2 Auto-ignition Temperature: Not Applicable.

5.3 Flammability Limits: Not Applicable.

5.4 Unusual Fire and Explosion Hazards: None.

5.5 Common Extinguishing Methods: In case of fire in close proximity, all means of extinguishing are acceptable.
6. Accidental Release Measures

6.1 Precautions: Avoid excessive dust.

6.2 Cleanup methods: Clean up uncontaminated material and recycle into process. Place unusable material into a closed, labeled container compatible with the product.

6.3 Precautions for protection of the environment: Clean up residual material by washing area with water. Do not flush to drain. Prevent material from entering public sewer systems or any waterways. Dispose of waste in accordance with applicable federal, state, and local environmental laws and regulations.

7. Handling and Storage

7.1 Handling: Operate in a well-ventilated area. Keep away from reactive products (see section 10).

7.2 Storage: Store in a dry area away from food, keeping product in original closed packaging.

7.3 Specific Uses: See Section 1.2

7.4 Packaging: Paper and PE.

8. Exposure Controls/Personal Protection

8.1 Exposure Limit Values - Barium Carbonate:

<table>

<td></td>
<td>in soluble compounds of Ba</td>
<td>in soluble compounds of Ba</td>
<td></td>
</tr>
</tbody>
</table>

ACGIH® and TLV® are registered trademarks of the American Conference of Governmental Industrial Hygienists.

8.2 Occupational Exposure Controls:

8.2.1 Ventilation:
- Premises ventilation.
- Maintain employee exposures to levels below the applicable exposure limits.

8.2.2 Respiratory protection:
- Respiratory protection: Use only respiratory protection that conforms to international/national standards (NIOSH/MSHA approved respiratory protection).
- Full-face supplied air respirator for high or unknown exposures. Cartridge respirators in known concentrations above exposure limits.
- Comply with OSHA respiratory protection requirements.

8.2.3 Hand protection: Chemical protective gloves. Recommended materials: PVC, neoprene or rubber.

8.2.4 Eye protection: Wear protective goggles for all industrial operations.
8.2.5 Skin protection: Wear boots, apron, long sleeves and other protective clothing suitable for use conditions to prevent contact with the skin.

8.3 Other information:
- Chemical protective clothing in dusty areas.
- An eyewash and safety shower should be nearby and ready for use.
- Use good hygiene practices when handling this product including changing work clothes after use.
- Do not eat, drink or smoke in areas where this material is handled.

9. Physical and Chemical Properties

9.1 Appearance: Powder, pellets
Color: White
Odor: Odorless

9.2 Important Health, Safety and Environmental information:
- pH: 7 to 8 @ 20°C (68°F) in saturated solution.
- Change of state:
  - Melting point: Not Applicable.
  - Boiling point: Not Applicable.
  - Decomposition Temperature: > 1400°C (2552°F)
- Flash Point: Not Applicable.
- Oxidizing Properties: Oxidizer, See Section 4
- Vapor Pressure: Not Applicable.
- Relative Density:
  - Specific gravity (H2O=1): 4.3
- Solubility:
  - Water: 0.02 g/l @ 20°C (68°F).
- Partition coefficient: P (n-octanol/water): Not listed.
- Viscosity: Not Applicable.
- Vapor Density (air=1): Not Applicable.
- Evaporation Rate: Not Applicable.

9.3 Other Information: Bulk Density-400-2,000 kg/m³ (25-125 lbs/ft.³)

10. Stability and Reactivity

Stability: Stable under normal conditions of use.

10.1 Conditions to avoid: Heat.

10.2 Materials and substances to avoid: Contact with acids liberates CO₂, sometimes violently.

10.3 Hazardous decomposition products: Carbon dioxide and soluble Barium salts (Barium oxide).

10.4 Hazardous Polymerization: Not Applicable.
11. Toxicological Information

11.1 Acute toxicity:
   Oral: LD₅₀, Rat, 418-800 mg/kg.

11.2 Chronic toxicity:
   • Inhalation-After repeated exposure, rat, Target Organ-cardiovascular/hematology respiratory system liver: 5.2 mg/m³, observed effect.
   • Oral -After repeated exposure, rat/mouse, Target Organ - cardiovascular/hematology renal system/adrenal glands, observed effect.

11.3 Carcinogenic Designation: Oral (water), after prolonged exposure, rat/mouse, no carcinogenic effect.

11.4 Comments: Harmful effect by oral route. The toxicity is mainly linked to the barium ion (nervous, cardiovascular, respiratory and gastrointestinal troubles). Risk of effect on liver, the cardiovascular and hematological system and the adrenals. Irritant effect for the skin and eyes.

12. Ecological Information

12.1 Acute ecotoxicity: Fishes, Gambusia affinis, LC 50, 96 hour(s), > 10 g/l. Result: toxicity threshold above hydro-solubility.

12.2 Chronic ecotoxicity: No data.

12.3 Mobility: Mobility as solid aerosols.

12.4 Degradation
   Abiotic: Slow ionization and cation precipitation in presence of sulfates or carbonates.
   Biotic: Not Applicable (inorganic compound).

12.5 Potential for bioaccumulation: Bio-concentration-Result: potential accumulation of the cation.

12.6 Other adverse effects/Comments: Product is not significantly hazardous for the environment. Persistent product mainly as inert form.

13. Disposal Considerations

13.1 Waste treatment: Use a solution of sodium/magnesium sulfate or a dilute solution of sulfuric acid to form a precipitate of sulfate. Spilled product should be disposed of in an EPA approved disposal facility in accordance with applicable national, state and local environmental laws and regulations.

13.2 Packaging treatment: Containers that cannot be cleaned must be treated as waste and disposed of in an approved industrial incineration facility.

13.3 RCRA Hazardous Waste: May exhibit characteristic of hazardous waste (D005). Results of toxicant extraction test must show waste to contain at least 100 mg/l barium to be considered hazardous waste.

15. Regulatory Information

National Regulations (US)

TSCA Inventory 8(b): Yes

SARA Title III Sec. 302/303 Extremely Hazardous Substances (40 CFR355): No

SARA Title III Sec. 311/312 (40 CFR 370):
- Hazard Category
  - Acute health hazard; chronic health hazard.
  - Threshold planning quantity - 10,000 lbs

SARA Title III Sec. 313 Toxic Chemical Emissions Reporting (40 CFR 372): No

CERCLA Hazardous Substance (40CFR Part 302)
- Listed Substance: No

16. Other Information

16.1 Ratings:

NFPA (NATIONAL FIRE PROTECTION ASSOCIATION)
- Health = 2
- Flammability = 0
- Instability = 1
- Special = None

HMIS (HAZARDOUS MATERIAL INFORMATION SYSTEM)
- Health = 2
- Fire = 0
- Reactivity = 1
- PPE = Supplied by User; dependent on local conditions

16.2 Other Information:
The previous information is based upon our current knowledge and experience of our product and is not exhaustive. It applies to the product as defined by the specifications. In case of combinations of mixtures, one must confirm that no new hazards are likely to exist. In any case, the user is not exempt from observing all legal, administrative and regulatory procedures relating to the product, personal hygiene, and integrity of the work environment. (Unless noted to the contrary, the technical information applies only to pure product).

To our actual knowledge, the information contained herein is accurate as of the date of this document. However, neither Solvay Chemicals, Inc. nor any of its affiliates makes any warranty, express or implied, or accepts any liability in connection with this information or its use. This information is for use by technically skilled persons at their own discretion and risk and does not relate to the use of this product in combination with any other substance or any other process. This is not a license under any patent or other proprietary right. The user alone must finally determine suitability of any information or material for any contemplated use, the manner of use and whether any patents are infringed. This information gives typical properties only and is not to be used for specification purposes.
